

TILAK S BADAMI

Aspiring Data Analyst

Bengaluru, India — +91-8088628230 — tilakbadami8@gmail.com

linkedin.com/in/tilak-badami — github.com/TilakBadami

SUMMARY:

Aspiring Data Analyst with hands-on experience in Excel, Power BI, SQL, and Python. Skilled in data cleaning, analysis, visualization, dashboard development, and extracting actionable insights from datasets.

EDUCATION:

B.E. in Electronics and Communication Engineering	2022-2026	CGPA: 9.0
Visvesvaraya Technological University, Bengaluru		
12 TH - EXCELLENT PU COLLEGE	2019-2021	Percentage:89.5%
10 TH - BAEMRHS SCHOOL	2017-2019	Percentage:82%

Technical Skills:

Data Analytics Tools: Microsoft Excel, Power BI

Database & Querying: SQL, MySQL

Programming: Python

Data Visualization: Power BI, Excel

Data Transformation: Power Query

Data Analysis: Pivot Tables, Pivot Charts, DAX, Data Cleaning, Data Modeling

Core Competencies:

Analytical Thinking| Problem-Solving |Attention to Detail| Communication Skills.

Team Collaboration| Time Management| Decision-Making| Adaptability| Task Prioritization.

Projects:

Puma Sales Dashboard | Excel

Analyzed sales, profit, products, retailers, and regional performance.

Built an interactive dashboard using Pivot Tables, Charts, Slicers, and Excel formulas.

Salesperson Call Analytics Dashboard | Excel

Analyzed sales and product performance to identify key trends.

Created an interactive dashboard using Pivot Tables, Charts, and Slicers.

Coca-Cola Sales Dashboard | Excel

Analyzed sales, profit, units sold, retailers, and regional performance.

Developed an interactive dashboard using Pivot Tables, Charts, Slicers, and Excel formulas.

Grama Vasathi – Android App

Developed an Android application to help rural and urban users explore housing facilities and training opportunities.

Used Java, Kotlin, and Gen AI to design and implement application features.

Internships & Training:

Besant Technologies – Data Analytics Intern

Currently pursuing an internship in **Data Analytics** with hands-on experience in **Excel, Power BI, SQL, and Python**.

Working on data cleaning, analysis, visualization, and dashboard development using real-world datasets.

Edunet – SAP / ML & Deep Learning Training

Completed 6+ months of training and internship in Machine Learning and Deep Learning. Gained practical exposure to real-world applications and industry-oriented projects.

Certifications & Training:

Microsoft Power BI – **Skill Course (2026)**

Machine Learning & Deep Learning – **Edunet (2025-2026)**

Programming Mathematics Using Python **(2023)**

Rubicon Placement Training **(2025)**

MindMatrix Internship **(2026)**

IoT Hardware Analyst **(2024)**

Languages: English (Fluent) • Kannada (Native) • Hindi (Fluent).
